That we demo'd our POC! 

Presenting an app in our 3rd sprint review

 1  0

We've almost got a viable product! 

that there is an end to end solution

 0  0

The feedback we received so far 

A great sprint review!

 0  0

Building terraform pipelines 

 0  0

When the backend connected with the frontend and it worked 

 0  0

Learned

That serverless is easy 

 0  0

Cloud - AWS - Terraform, massive achievement 

 0  0

little bit of React 

 0  0

More about APIs and Cloud than I thought I ever would 

 0  0

to take it as it is , not to over think 

 0  0

Not to be so stubborn 

 0  0

I like to pair more than I thought 

 0  0

Lacked

need more pairing exercise 

Pairing on front end/back end

  6  0

Clarity of what each other is working on 

Communication could have been better.

  5  0

went bit too fast 

I wish we had more time to improve our first app, a couple of days more

 2  0

Focus on some occasions. 

 1  0

Longed For

some breathing time, at time s 

 1  0

Earlier preparation of the sprint review plan 

Goals for Next Sprint

  4  0

I wish I could have learned React during Heather classes 

Need to learn React, priority number 1

 1  0

Shorter daily stand ups 

  2  0

We had a common agreement on the way we should present the results in the screen 

 1  0

Actions

Everyone in the team, fir a one hour slot to pair w each other team membe in the next week, no agenda. 

Ellie to arrange a goal setting session for the fi sprint. Everyone to bring their ideas for final goal! Ellie to set a structure to work through these. 

Jamie to find a time and set a session goal for Lumina Profiles. 

How we are managing to
produce good results even
having so different minds

👍 0 💬 0

we seem much more
understanding one another

I liked to see our lumina
profiles, so interesting to
confirm how different we
are :)

Lumina profiles were great
to help us understand each
other

👍 0 💬 0

Helping with React, it's
helping me understand it
better

👍 0 💬 0

clarity on som eof the
topics

👍 0 💬 0
